About IWCE23

The 2nd International Workshop on Chemical Engineering will be held on 09 and 10th December 2023 at Sétif, Algeria. This second edition is dedicated to Catalysis. The workshop is hosted by the Laboratory of Chemical Process Engineering of Ferhat Abbas Sétif 1 University. Authors, researchers and students are welcome to contribute to this workshop.

The aim is to bring together researchers in this area to share their expertise. This will open new collaborations, thus helping to find solutions to the latest environmental, energy and circular economy problems. The attending experts and industry partners will also provide a forum of discussion. We are looking forward to seeing you at the workshop and contribute to its success.

Workshop Topics

- 1- Green catalysis
- 2- Environmental catalysis
- 3- Materials/ Nanomaterials/Biomaterials
- 4- Chemical Engineering
